

Catalog

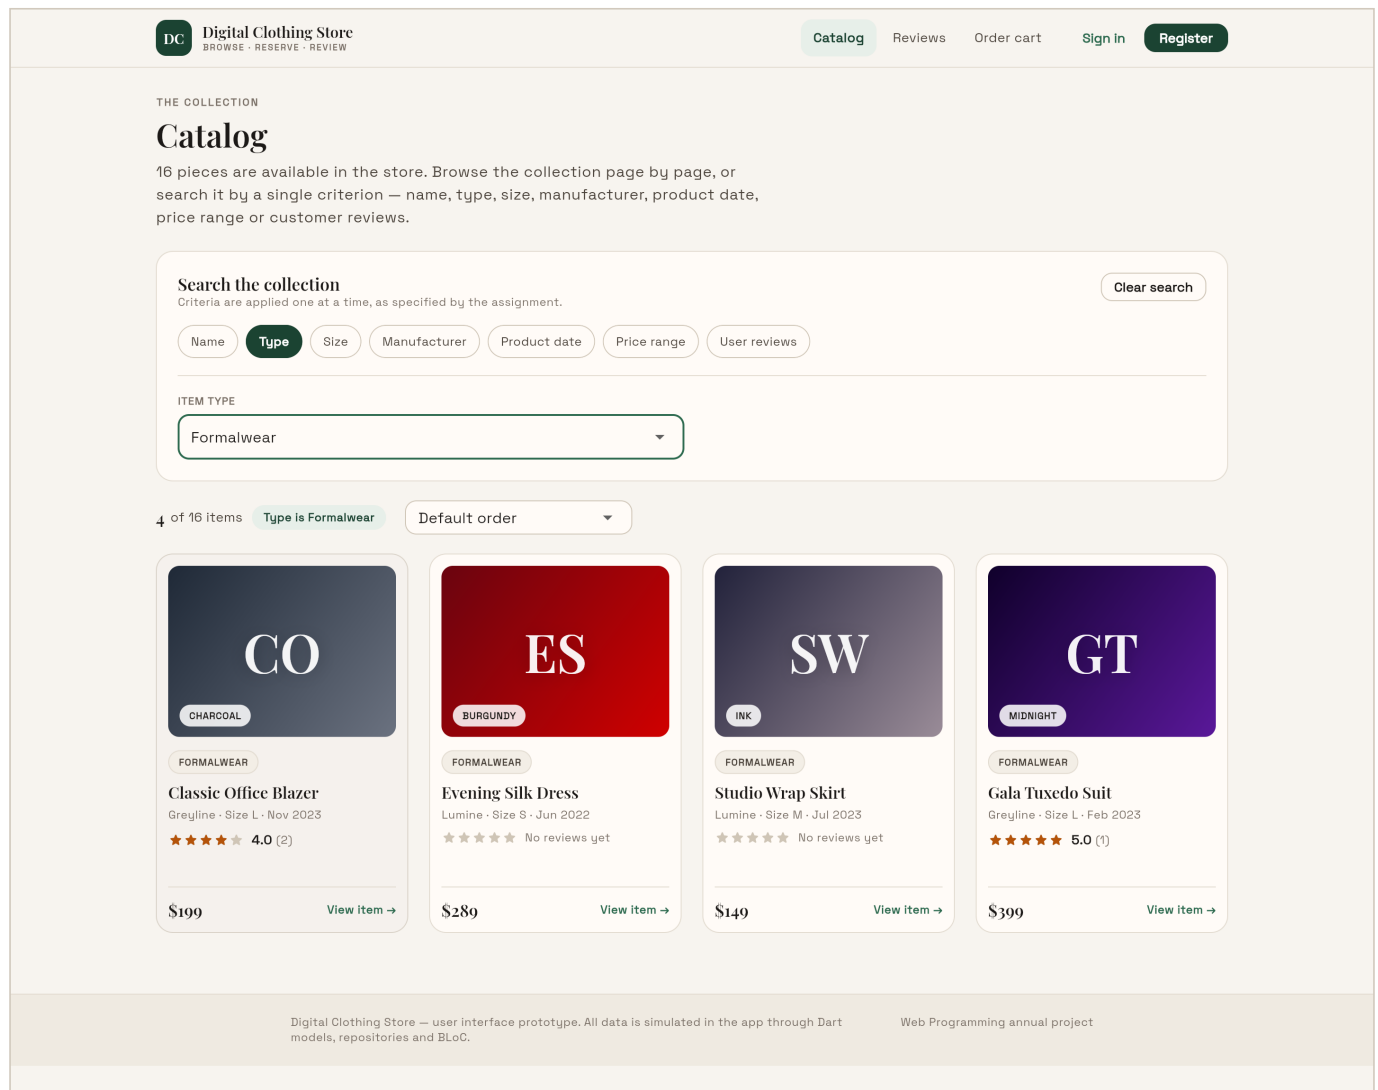

Function: Browse the predefined set of items. For each item the catalog shows the name, type, size, manufacturer, product date, price and the rating collected from customer reviews. The set is browsed manually, page by page. No account is required.

Search — choice of criterion

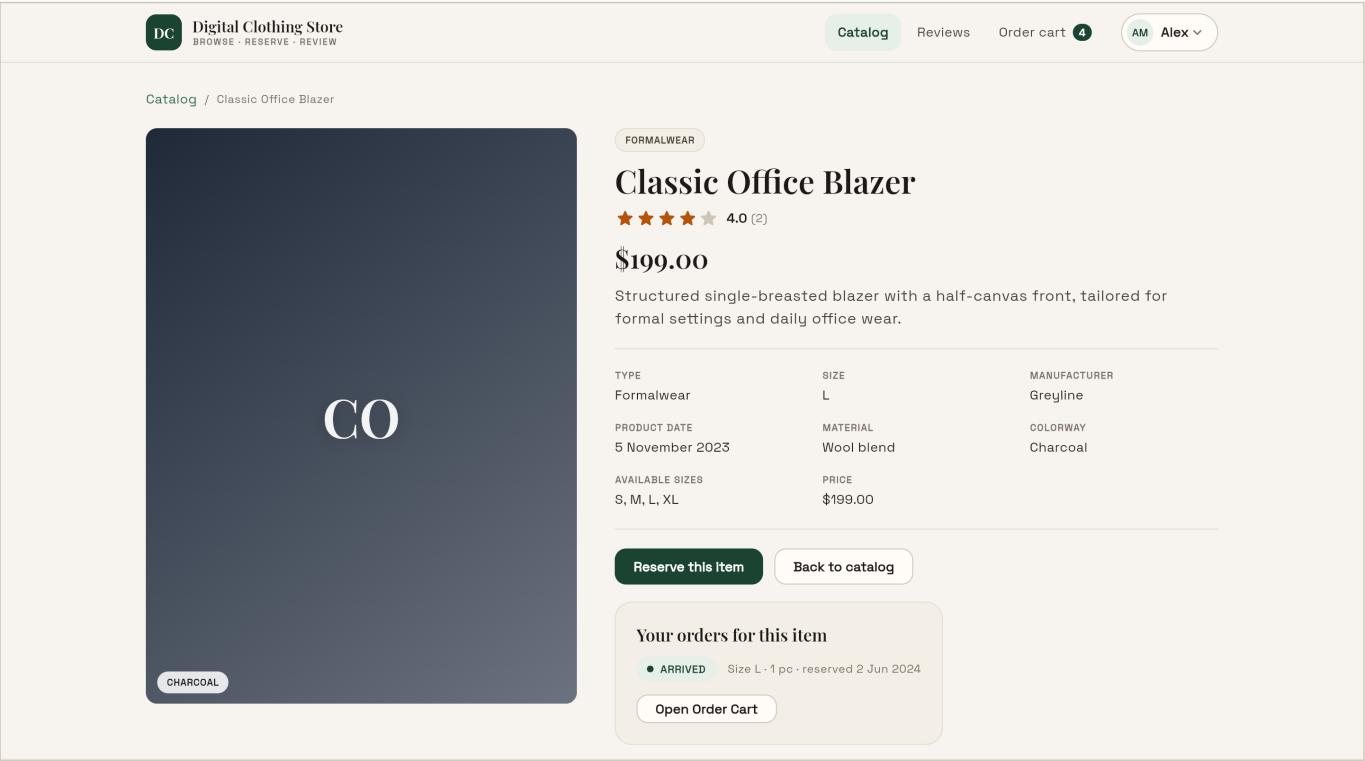

Function: Choose the criterion the search is performed by. Criteria are used separately, one at a time: name, type, size, manufacturer, product date, price range and user reviews.

Search — result

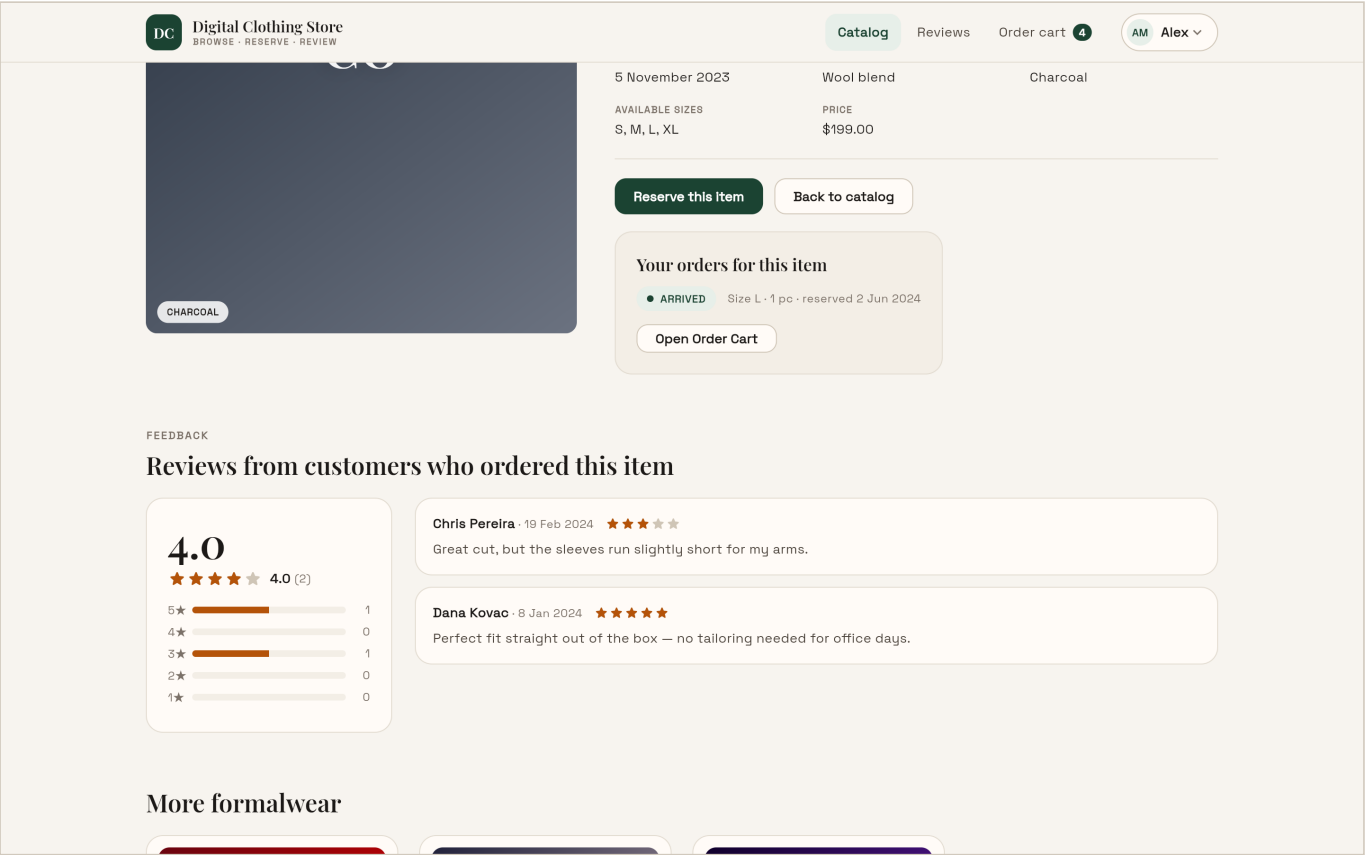

Function: Search for items. Criteria for search are used as data about the item; the result set and the applied criterion are shown above the list, and the result can be reordered.

Item

Function: Display all data of a single item: name, type, size, sizes available for reservation, manufacturer, product date, material, colorway and price.

Item — reviews

Function: Read the reviews of customers who ordered this item, together with the average rating and the distribution of the individual ratings. No account is required.

Dana Kovac · 4 Jul 2024★★★★★
Harbour Linen Shirt · Northbay
Wrinkles, as linen does, but the colour is exactly as pictured.

Riley Sato · 21 Jun 2024★★★★★
Daily Knit Tee · CottonWay
Bought three. Holds shape after a dozen washes.

Jamie Lindqvist · 29 May 2024★★★★★
Ridge Fleece Pullover · Peakline
The chest pocket fits a phone and the fleece is genuinely warm.

Jamie Lindqvist · 11 May 2024★★★★★
City Runner Jacket · UrbanFox
Wore it through a week of rain. Still dry, still looks new.

Alex Moreau · 5 Apr 2024★★★★★
Trail Shell Parka · Peakline
Bought it for a winter trip and it handled sleet without a problem.

Riley Sato · 2 Apr 2024★★★★★
City Runner Jacket · UrbanFox
Light, packs down to nothing and the reflective trim really works after dark.

Dana Kovac · 3 Mar 2024★★★★★
Weekend Hoodie · Northbay
The fabric is much heavier than I expected — in the best way.

Chris Pereira · 19 Feb 2024★★★★★
Classic Office Blazer · Greyline
Great cut, but the sleeves run slightly short for my arms.

Chris Pereira · 22 Jan 2024★★★★★
Trail Shell Parka · Peakline
Solid shell, but it runs a full size large. Order down.

Dana Kovac · 8 Jan 2024★★★★★
Classic Office Blazer · Greyline
Perfect fit straight out of the box — no tailoring needed for office days.

Dana Kovac · 5 Dec 2023★★★★★
Workshop Utility Pants · ForgeCo
Stiff for the first week, then they break in beautifully.

Riley Sato · 30 Nov 2023★★★★★
Metro Trench Coat · Greyline
Warm, structured and the removable liner makes it a three-season coat.

Function: Read the reviews of all customers, filtered by item and by rating. Every review originates from a customer who ordered the item and rated the delivered order.

Digital Clothing Store — user interface prototype. All data is simulated in the app through Dart models, repositories and BLoC.

Web Programming annual project

Function: Register a new account. During registration the customer enters all profile data: name and surname, contact information, favourite types of items and login data.

Profile

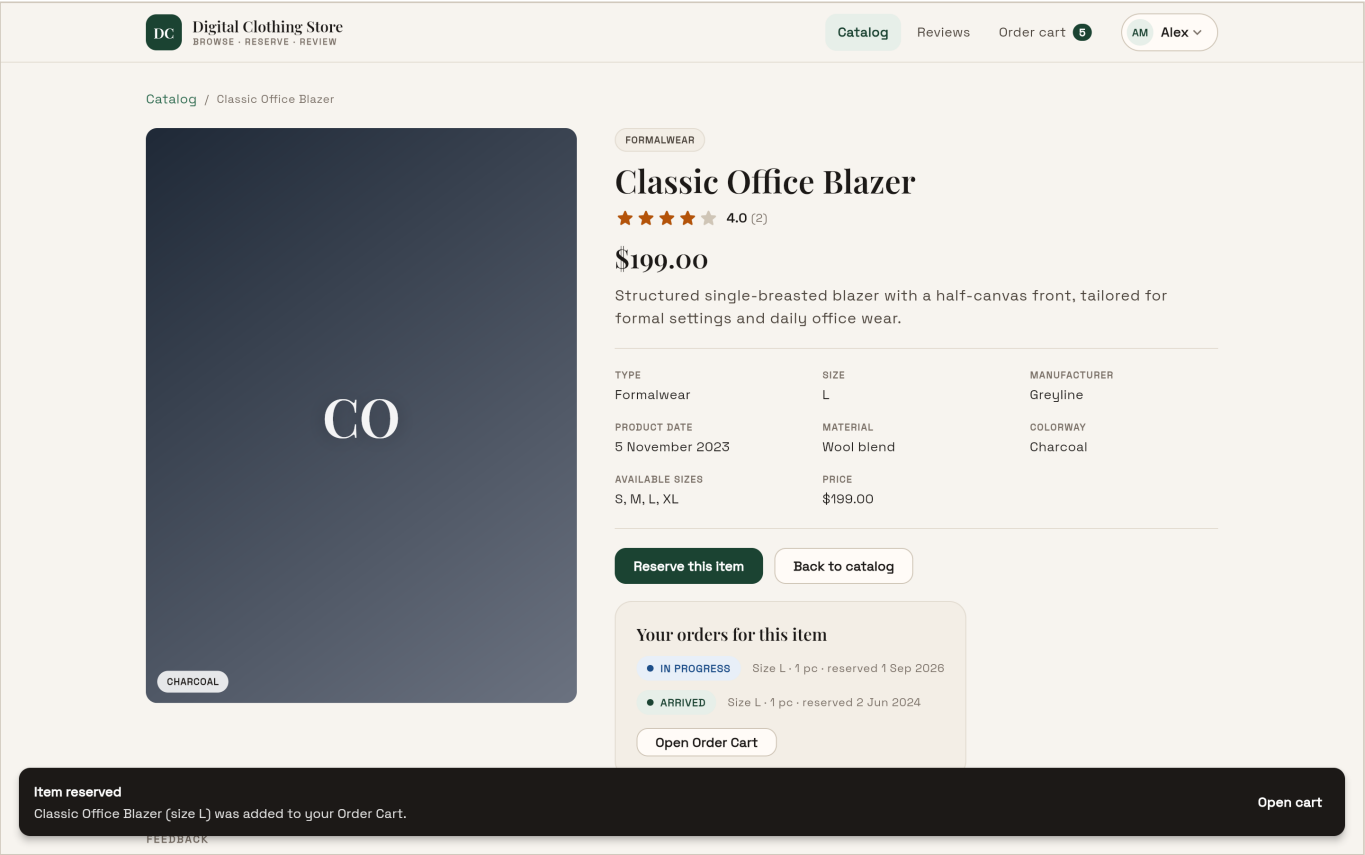

Function: Display and modify the profile data entered at registration, change the login password, and review the orders and ratings of the customer.

Reservation of an item

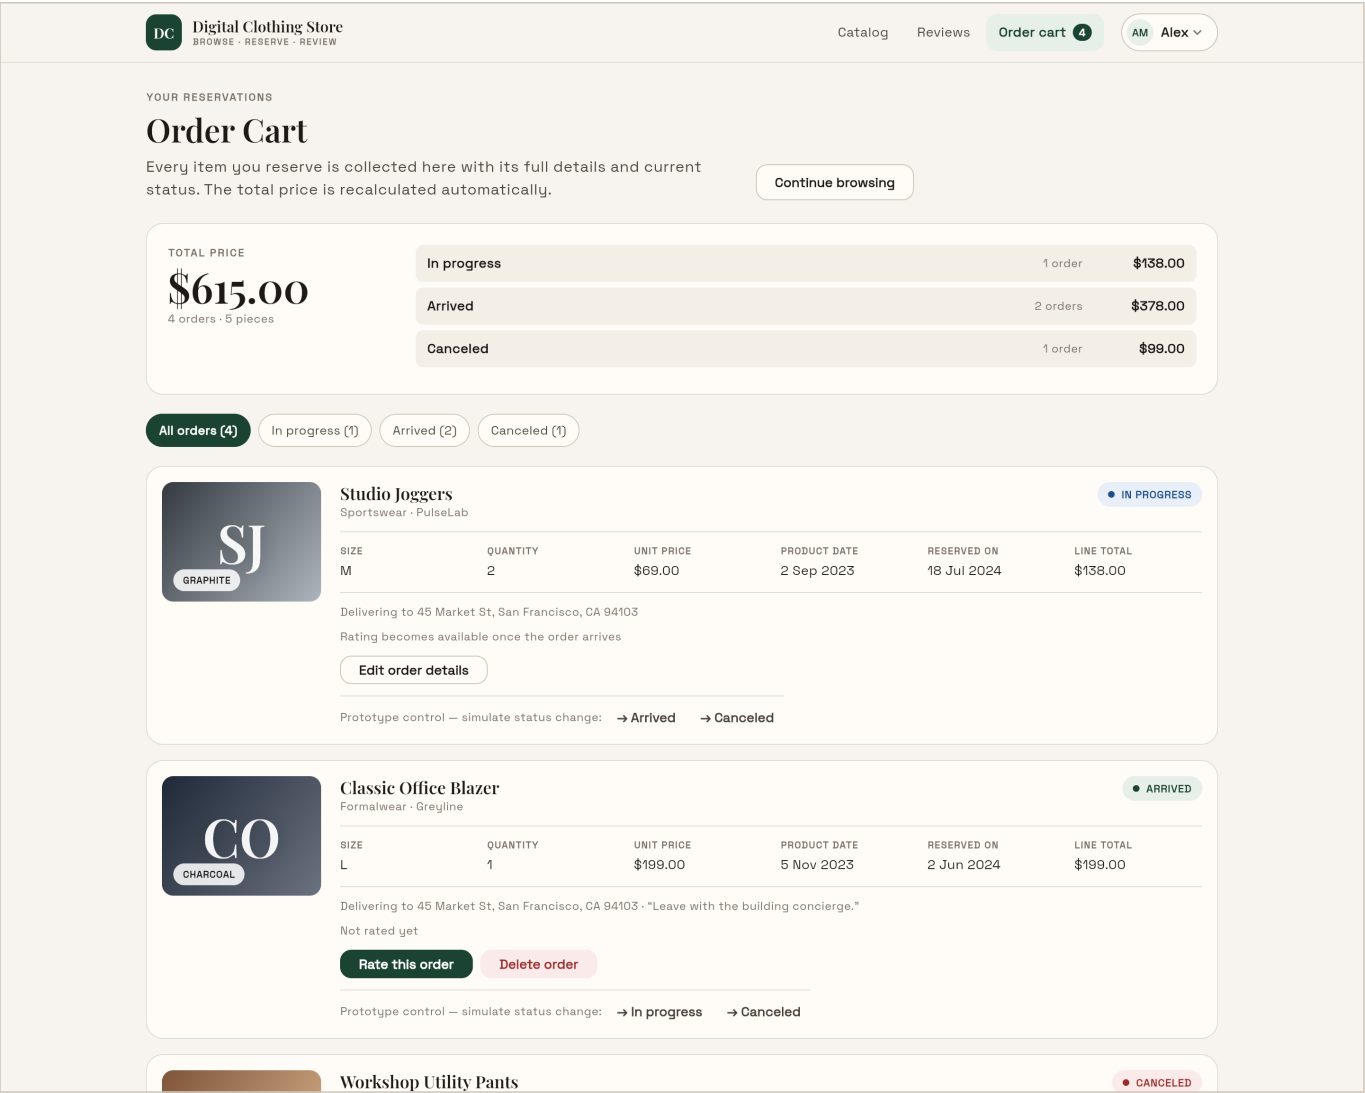

Function: Reserve an item from the offered set. The customer chooses the size and the quantity, confirms the delivery address, and the total price of the reservation is calculated.

Notification of a reservation

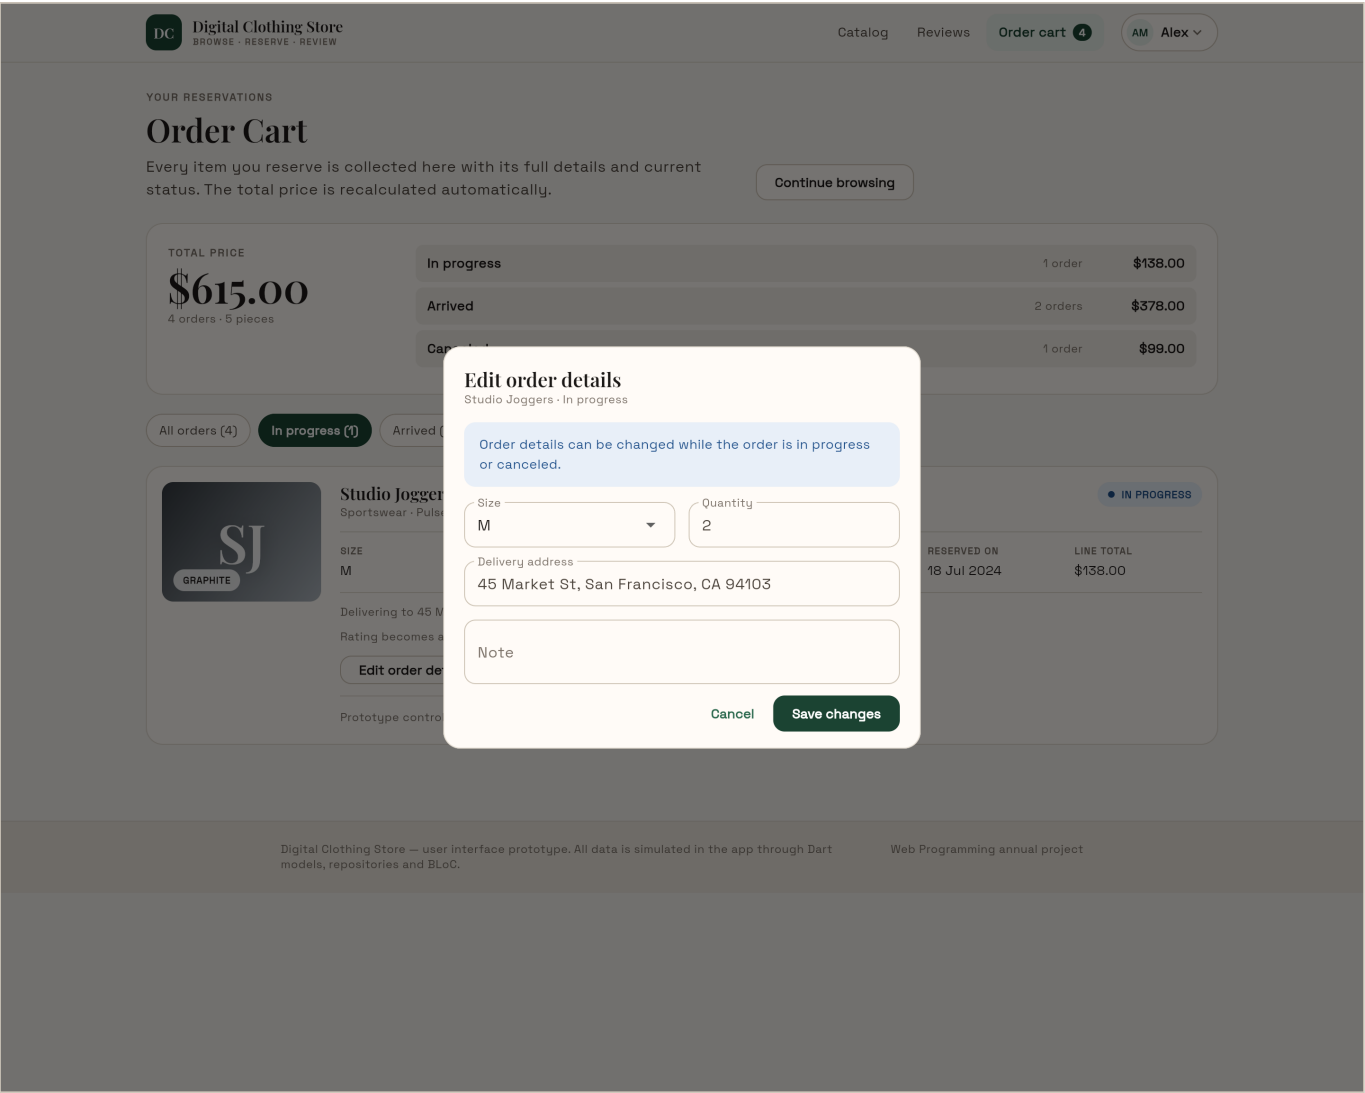

Function: Notify the customer that the reservation succeeded and that the reserved item was added to the Order Cart.

Order Cart

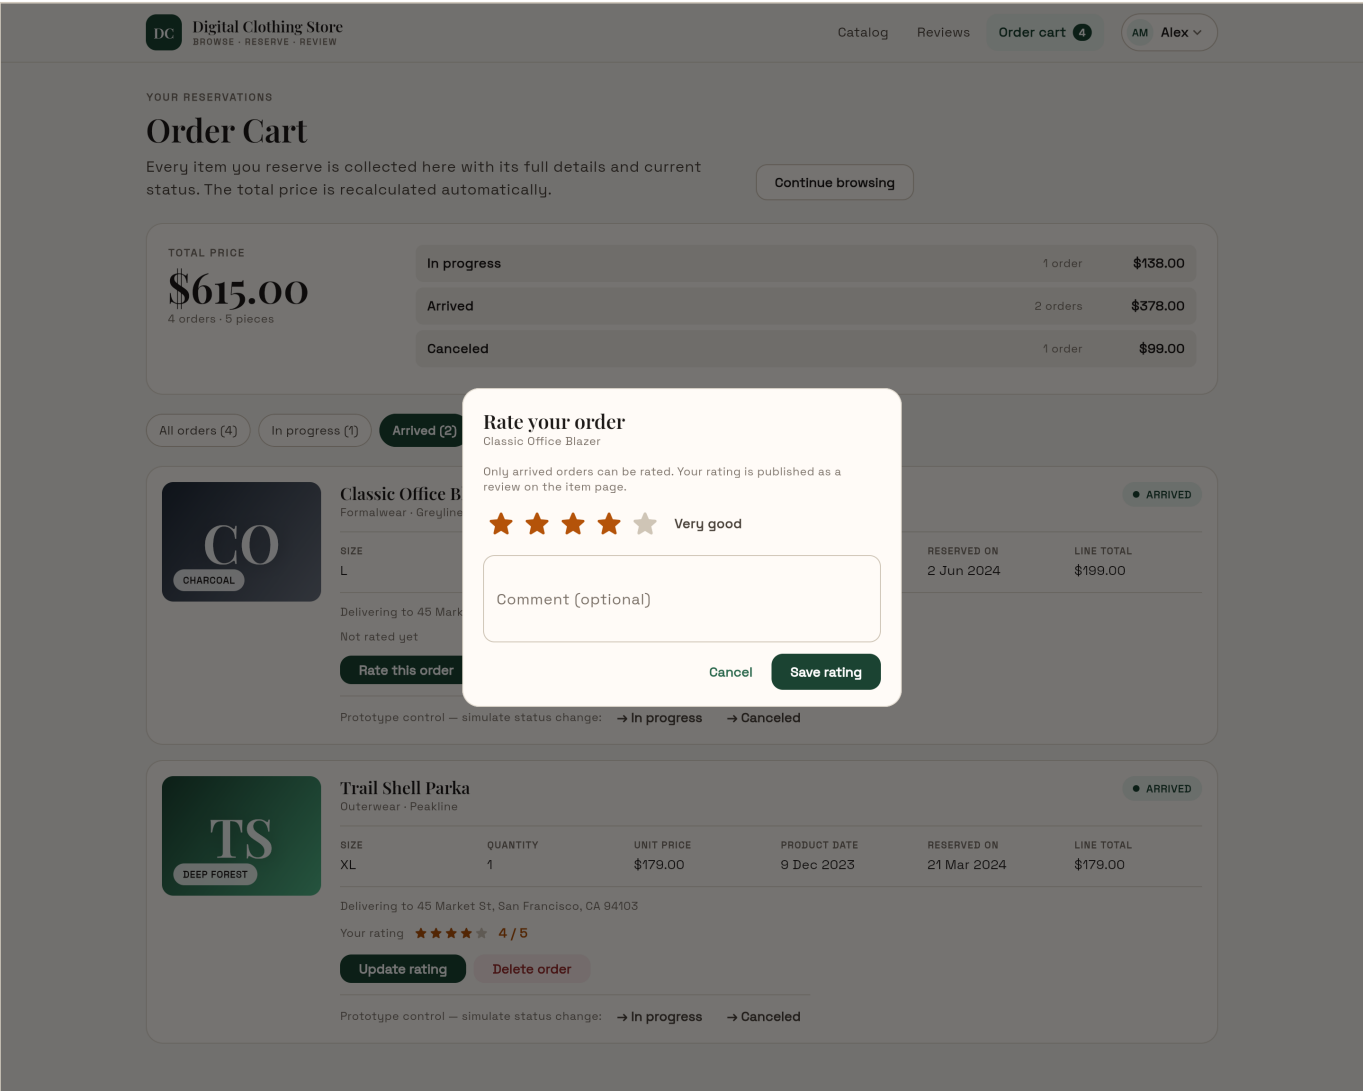

Function: Display all reserved items with the name, type, size, manufacturer, product date, price, order status and rating. The total price of the Cart is calculated automatically.

Change of order details

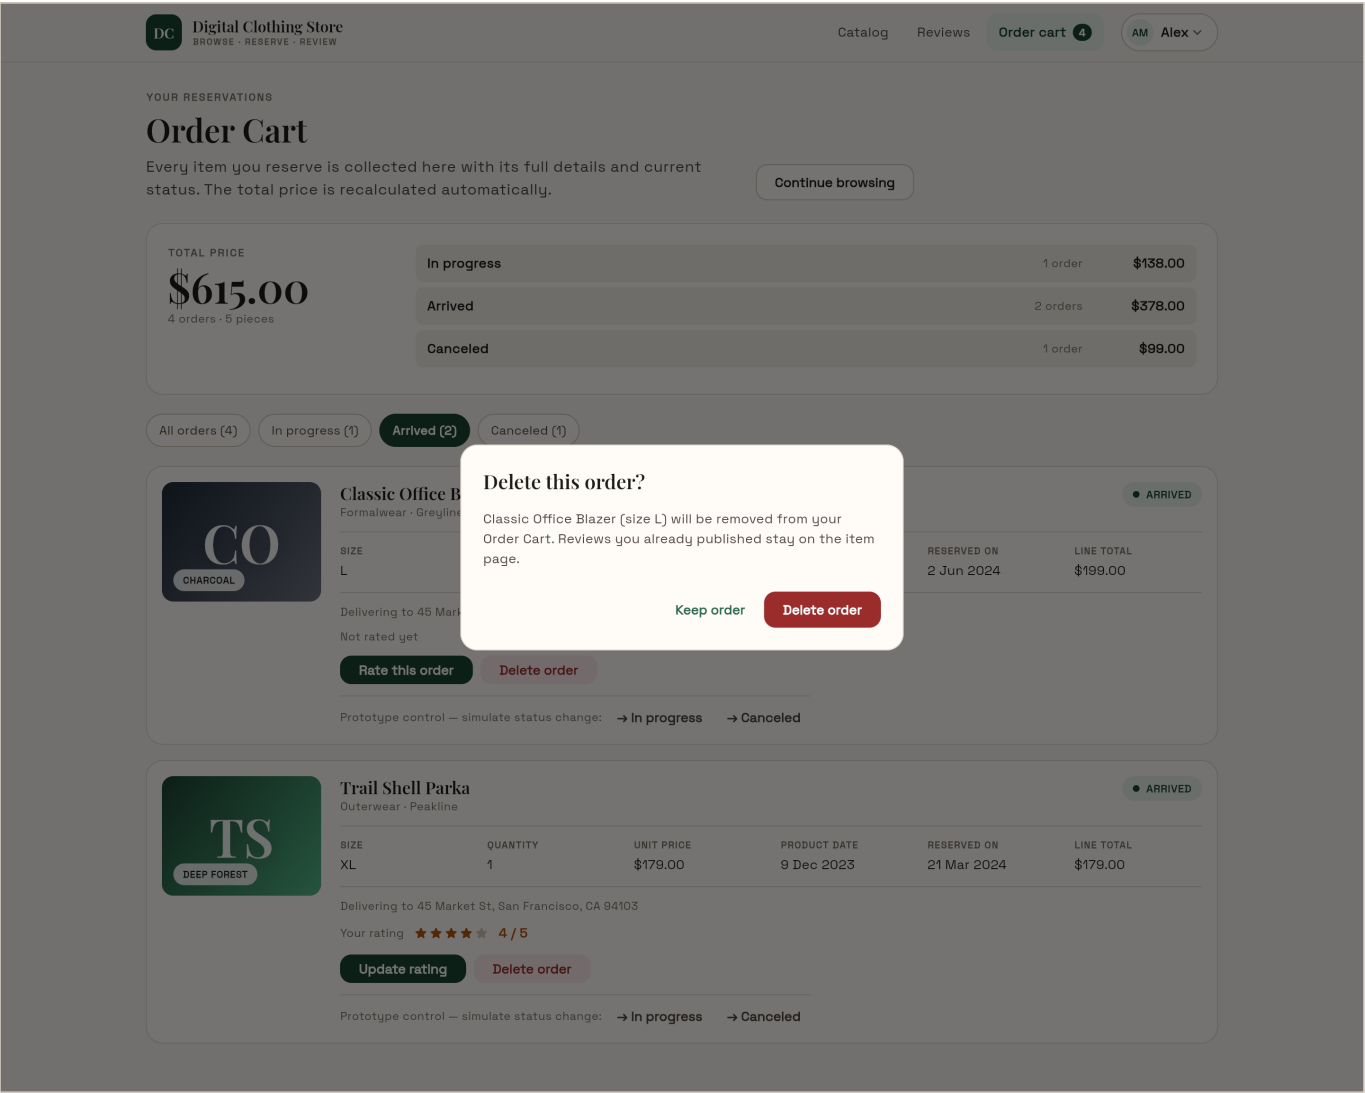

Function: Change the details of an order from the Cart. Available for orders in the 'in progress' and 'canceled' status.

Rating of an order

Function: Rate an order. Available only for the orders of the given customer in the 'arrived' status; the rating is published as a review of the item.

Deletion of an order

Function: Delete an order from the Cart. Available only for orders in the 'arrived' status.
